I have very damaged hair from lightening and have always been afraid to do any straightening or curling. It wasn't until the hairdressers brought this kit back that I decided to take the risk and I can't believe I can only do such hairstyles or curls

I am a working stylist and I highly recommend this set. All masters in my mind praise it. From a professional point of view, it evaporates really well and at a low temperature. The heat is perfect.

The most amazing purchase I've ever had 😊 I've been using it for more than a year, I've done so many hairstyles that everyone started asking how I pay so much or what courses I finished 😊

I'm in shock at how easy it is to use. I could only try one before, but now it's so easy on 130 degrees.
